FISCAL ANALYSIS

ASSUMPTION

Officials from the **Office of State Courts Administrator, Department of Insurance, Financial Institutions, and Professional Registration, Department of Health and Senior Services, Department of Labor and Industrial Relations, Missouri Department of Transportation, Missouri Consolidated Health Care Plan, and Missouri Department of Conservation** assume the proposal will have no fiscal impact on their organizations.

Officials from the **Department of Social Services** state the Division of Legal Services, the Family Support Division, and the MO HealthNet Division have all reviewed similar versions of this proposal. At this point in time, no fiscal impact can be pinpointed. However, the long-range fiscal implications are unknown. Whether or not there is a fiscal impact to small business or total state revenue or there are long range fiscal implications depends, in large part, upon the requirements of any federal programs, if any, that may be implemented in the future concerning health care.

Officials from the **Department of Public Safety - Missouri State Highway Patrol** defer to the Missouri Department of Transportation for response regarding the potential fiscal impact of this proposal on their organization.

Officials from the **Office of Secretary of State (SOS)** state the fiscal impact for this proposal is less than \$2,500. The SOS does not expect that additional funding would be required to meet these costs. However, the SOS also recognizes that many such bills may be passed by the General Assembly in a given year and that collectively the costs may be in excess of what the SOS can sustain within its core budget. Therefore, the SOS reserves the right to request funding for the costs of supporting administrative rules requirements should the need arise based on a review of the finally approved bills signed by the Governor.
